

## BENEFITS OF OUR SERVICES

**REDUCTION OF PRODUCTION COSTS:** client receives product already prepared for its use.

**STOCK REDUCTION:** client orders only exact quantities for each production campaign reducing drop and residue in production.

**REDUCTION OF WAREHOUSE COSTS:** Aldebarán's warehouse is used like exclusive supply center for clients.

**SPECIALIZED PERSONNEL:** client's personnel can focus all efforts in final production processes.

**LESS RESIDUES:** client will manage empty packing and no production residues.

OUR

SERVICES

## RESEARCH AND DEVELOPMENT (R&D)

Aldebaran offers cutting-edge technology for product development from R&D steps to industrial batches.

Lab equipment | Pilot plant | Industrial plant

8 l. "V" homogeneizer

1000 l. "V" industrial homogeneizer

## PRODUCTION AND PACKAGING

Aldebaran offers great variety of production services: **milling, sieving, homogenization, mixing and packaging.** Our company put under client's disposal installations and control methods to ensure the compliance of specific requirements.

All processes take place in isolated rooms where Humidity and Temperature are controlled and cross contamination is avoided.

Aldebaran customizes product packaging according to client requirements.

HOMOLOGATED PACKAGINGS

TRACEABILITY LABELS

ALUMINIUM BAG

## ANALYSIS SERVICES

Aldebaran assures a complete control of whole process with its own chemical and physical lab.

Our company offers analysis service as outsource laboratory.
